PROFESSIONAL SUMMARY

Computer Science graduate with First-Class Honors (GPA: 3.99/4) from Umm Al-Qura University. Experienced in cloud computing, AI, and DevOps with hands-on projects in deploying cloud infrastructure, developing AI-powered applications, and applying Infrastructure as Code (IaC) using Terraform. Passionate about building scalable solutions and improving user experiences, with strong problem-solving and teamwork skills.

WORK EXPERIENCE

Trainee, Cooperative Training

The General Authority for the Affairs of the Grand Mosque and the Prophet's Mosque

JUN2023

Makkah,SA

- Built and configured a local network in Packet Tracer, ensuring operational readiness.
- Installed and activated Office programs and essential software (WinRAR, Adobe, Chrome, Windows OS, AnyDesk).
- Improved device security by installing antivirus, applying optimization commands, and performing regular audits.
- Configured file sharing and network printers across multiple devices, improving collaboration efficiency by 20%.

EDUCATION

Cloud Computing Bootcamp

Saudi Digital Academy | Champion of The Week

FEB 2025 – MAY 2025

Online

Bachelor's degree in Computer Science

Umm AL-Qura University | GPA: 3.99 of 4 | First honor

AUG 2020 – JUN 2024

Makkah,SA

TECHNICAL AND SOFT SKILLS

- **Languages:** Java, Python, HTML/CSS, JavaScript, PHP, SQL, Kotlin, HCL
- **Frameworks & AI:** FastAPI, Streamlit, YOLOv8, GPT-4 API
- **DevOps & Cloud:** Terraform, Docker, GitHub (+Actions), Microsoft Azure (VMs, VNets, Cosmos DB, Functions, PostgreSQL, etc.)
- **Databases:** MySQL, PostgreSQL, SQL Server, MongoDB, ChromaDB
- **Tools:** VS Code, IntelliJ, Android Studio, DBeaver, Packet Tracer, Anaconda
- **Soft Skills:** Problem Solving, Teamwork, Self-learning, Discipline, Communication, Presentation

PROJECTS

- **RAG Chatbot Deployment on Azure – Streamlit, FastAPI, Terraform, GitHub Actions**
 - Built a Retrieval-Augmented Generation chatbot to answer questions from PDFs
 - Deployed the app using three architectures: VM Scale Sets, Azure Functions (serverless), and Container Apps.
 - Automated infrastructure with Terraform and CI/CD with GitHub Actions, reducing deployment time by 30%.
- **DataHub Deployment – Azure, Docker, Terraform**
 - Deployed DataHub on Azure with TLS encryption and access control.
 - Configured secure infrastructure with SSH access and logging, supporting the data team in metadata scanning and glossary setup.

- **Graduation Project – Pill Detection App** – *YOLO, GPT-4 API, Kotlin*
 - Developed a mobile app that identifies pills via image recognition.
 - Provided dosage, side effects, and storage guidelines, improving accessibility for **50+ elderly users** with **~90% accuracy**.
- **Desktop application - Clothing Donations** - *JavaFX, MySQL*
 - Designed and developed a donation management system for donors and donees.
- **Warehouse Management System-** *Java*
 - Developed a Warehouse Management System for a furniture store.

PUBLICATIONS

- **A Computer Vision-Based Pill Recognition Application: Bridging Gaps in Medication Understanding for the Elderly** *IJACSA | JUL2024*
- **Machine Learning Model for Diabetes Prediction Using Parallel Computing: A Comparative Study** *ICoSTEC 2024 | AUG2024*
- **Automated Recognition Model for Identifying Harmful and Harmless Insects in Crop Management** *ICCIT 2024 | AUG2024*

CERTIFICATION AND COURSES

- **Docker101-** *Satr Coding Platform* *APR2025*
- **Github Actions 101-** *Satr Coding Platform* *MAR2025*
- **YOLOv7 YOLOv8 YOLOv9 – Deep Learning Course** – *Udemy* *JAN2025*
- **Introduction to MongoDB** – *MongoDB University* *JAN2025*
- **React Native** – *Google Developer Student Club* *APR2024*

LANGUAGES

ARABIC: Native.

ENGLISH: Advanced.
